PROFESSIONAL SUMMARY

IT Support professional with hands-on experience across healthcare and government environments, specializing in endpoint management, ITSM operations, device lifecycle, and VIP support. Strong background in Windows 10/11 deployments, Intune/SCCM imaging, ServiceNow/Ivanti ticketing, and cross-department coordination. Known for delivering high-volume support, driving process improvements, and contributing to large-scale technical projects including OS migrations and enterprise hardware rollouts

WORK EXPERIENCE

Service Desk Analyst

Nov 2025 – Present

Women's College Hospital (WCH)

Toronto, ON

- Provide high volume **walk-in, phone, and remote support** for Windows 10/11 and Apple devices.
- Resolve an average of 20 to 25 tickets per day using Ivanti while consistently meeting SLA targets.
- Manage user accounts, permissions, and access controls in **Active Directory and Exchange**.
- Deploy, image, and recover endpoints using **SCCM and Intune**, ensuring secure and compliant devices.
- Diagnose and resolve issues with printers, docking stations, and mobile accessories across hardware, software, and network layers.
- Deliver onsite support across clinical, administrative, and VIP areas, including priority escalations.
- Document incidents, resolutions, and asset activity in **ITSM system** (Ivanti), supporting audit and service continuity.
- Support **asset lifecycle activities** including inventory tracking, redeployment, and vendor coordination.

IT Infrastructure & Cloud Support Consultant

June 2025 – Oct 2025

Freelancer

Toronto, ON

- Executed **Windows 10 to Windows 11 imaging and deployments**, including installations, moves, additions, and changes.
- Coordinated **data backup and recovery** prior to device refreshes and system rebuilds.
- Installed and configured Microsoft Office 365, printers, shared drives, and endpoint software.

IT Support Officer (Level 2 Support)

Jan 2024 – Jan 2025

Government of Ontario (MPBSDP)

Toronto, ON

- Delivered executive (VIP) tier 2 support to **Ministers, Deputy Ministers, ADMs, Parliamentary Assistants (PAs)** and their support staff.
- Supported **Windows 10/11, macOS, iOS, and mobile devices**, including provisioning, troubleshooting, and policy enforcement.
- Provided hands-on **training** to co-op students, improving their technical skills, ticket quality, and understanding of **ITIL-aligned** support processes.
- Managed device lifecycle activities, including onboarding, redeployment, asset reclaim, and compliance tracking.
- Troubleshoot **networked printers, VPN, MFA, and authentication** issues while coordinating escalations with vendors and internal teams.

TECHNICAL SKILLS

- **Mobile Security & Compliance:** Device encryption, passcode policies, auto-lock enforcement, iOS/macOS provisioning, mobile patch compliance
- **Device & Endpoint Management:** Windows 10/11, Linux, iOS, Android, MDM fundamentals, Autopilot, Intune, Azure, SCCM, AD
- **ITIL & Service Management:** Incident/problem/request management, SLA adherence, escalation handling, queue management, Service Desk operations
- **Identity & Access:** MFA, VPN, Active Directory, secure onboarding/offboarding
- **Monitoring & Tools:** MDM dashboard monitoring, version tracking, ServiceNow, BMC Remedy, Jira, M365
- **Documentation & Reporting:** SOP creation, audit logs, compliance posture reporting, device inventory tracking
- **End-User Support:** Incident response, permissions troubleshooting, remote support, access failure remediation

PROJECTS

Windows 10 to Windows 11 Migration Across 30 Ministries (Government of Ontario) **Aug 2024**

- Coordinated a large-scale OS upgrade for executives across **30 ministries**.
- Built Excel-based tracking systems to manage migration waves, user readiness, and scheduling.
- Executed upgrades via **Intune** and USB deployment for high-security users, ensuring minimal disruption.
- Collaborated with L3 team to validate compatibility, troubleshoot failures, and maintain compliance.

Enterprise Device Imaging & Deployment Program (Women's College Hospital) **Dec 2025 - Present**

- Lead weekly deployment cycles using **SCCM LAN imaging**, ensuring standardized builds and compliance.
- Oversaw end-to-end device deployments across multiple departments, ensuring consistent imaging, configuration, and on-schedule delivery of all assigned hardware.
- Coordinated with department managers to ensure smooth onboarding and device readiness.

Printer & MFP Fleet Transition Project **Present**

- Taking ownership of a hospital-wide initiative to transition printing responsibilities from First Copy to internal IT.
- Conduct floor-by-floor data collection on printer models, usage, and network configurations.
- Built centralized inventory reports to support procurement and optimization planning.

EDUCATION

Computer Systems Technician - IT Infrastructure and Services Diploma **May 2023 – April 2025**
Sheridan College Institute of Technology and Advanced Learning **Brampton, ON**
